PROJECT 6 WEBFOLIO 50 PTS total   due **WEEK 16 MAY 13**

This is your final project. You will create
a site of multiple pages showing the
work you've accomplished throughout
the semester. The projects you will be
featuring are: 1 Self-Portrait project 2 GIF Animation project
3 ABCs of CSS Project 4 Alphabetimation In-Class Assignment 5 Quotable Site project.
Recommended/Optional Include additional work from outside of this class.

Click to see examples

1 : Your site should have an *index.html* page (you created this page for *Project 4 Index.Homepage*), plus at least
     one page for each of the above listed projects.

2 : You may use your index page from Project 4 exactly as is, modify it,
     or start completely over. Your pages should have a width of 1024
     pixels. You should have a *very* good reason to deviate from this width.

3 : All your pages should be interconnected via hyperlinks. You should
     be able to navigate through your entire site, then easily return to
     any page. Ease of navigation is *very* important.

4 : All your pages should also be connected by a visual style. The
     pages in your site should have a cohesive look even though they
     will be featuring a variety of different projects. This can be accom-
     plished through design, copywriting and navigation structure.

5 : This project will be due at the beginning of the final. Your site *MUST*
     be uploaded to your server and ready to be viewed when the final
     begins: MONDAY, MAY 13 at 5 PM SHARP

6 : You will be judging the final projects yourselves during the final.
     You will determine which you think to be the best sites within the
     class, and rank them in order. Students who receive the most
     points from their peers will receive the best grades. There will be a
     predetermined number of A grades, B grades, etc. So, in essence,
     you will be competing for the best grades. More details will be sup-
     plied as to judging and grades in the class prior to the final.

7 : Finally, there are no specific requirements for this project other
     than what is listed on this page, or announced in class. But please remember the consequence of Point 6 above is
     that those who put the most effort into their site will most likely earn the best grades.
